POLICY MAPPING

LSB Financial MPCI crop insurance policy holders have the option to be mapped, providing them accurate acreage measurement and field-by-field data collection. In striving to provide the best service, a time efficient, accurate mapping program is a valuable risk assessment tool.

Mapping provides you:

- Simplified and easy-to-use acreage and production reporting booklets
- Tools to record boundaries using number of acres, seed and chemical information
- Geographic representation of your crops, legal locations, field size and landmarks
